

FOOTBALL :: BOWLING :: BOXING :: OTHER SPORTS

Y. M. C. A. Five Meets Keyser This Evening

Tonight on the Keyser floor, the Fairmont Y. M. C. A. team meets the fast Keyser Collegians. A hard practice was run through last night and the men are fit and fine for the contest. Tomorrow night the team meets the Cumberland Association team at Cumberland and probably the hardest game of the season is looked for.

CHURCH LEAGUE BOWLING.

The Lutherans were invincible last night, and put the Christians to shame two games out of three. Gardner had high score and Shafferman high total.

Lutherans.				
Shafferman	124	112	109	345
Gantz	93	97	96	286
Stanham	119	115	97	331
Gardner	113	129	152	394
Totals	449	453	404	1306
Christians.				
Cunningham	75	103	76	254
Russell	101	107	85	293
Hawkins	92	123	103	318
Furman	75	120	94	289
Totals	343	453	458	1154

TEMPLE DUCKS.

The Temple team took a two out of three contest from the K. of C.'s last night. King getting high game with 255 and high total of 491.

K. of C.				
Stand	122	128	69	319
Flaherty	136	150	166	452
Jackson	126	147	136	409
Totals	384	425	371	1180
Temple.				
Stoess	151	154	165	470
Watkins	108	127	142	406
King	127	235	129	491
Totals	386	516	436	1338

Morgantown High Plays Here Tonight

Fairmont High meets Morgantown High tonight on the Y. M. C. A. floor. The Monongalia county boys arriving this evening with a team that will give the locals a good battle to win. Coach Moore has his men trained in real basketball since the Fairview game Tuesday night and is confident that the visitors will be properly discouraged.

AIR BUBBLE DEATH MYSTERY TRIAL ON

ROY HINTERLITER.

Trial of Roy Hinterliter, charged with the murder of Elizabeth Ratcliffe, his sweetheart, by blowing a bubble of air into her veins, has been begun at Olney, Ill., near where the body of the girl was found. Experts will testify on the air bubble, a new instrument of murder.

Good Advice.
Sow good services; sweet remembrances will grow from them.—Madame de Staël.

**ALERT, BUOYANT,
SNAPPY, GINGERY**

THAT'S HOW YOU FEEL WHEN YOU TAKE OLD HICKORY TONIC.

You'll feel all dressed up and ready for anything if you take Old Hickory Tonic for a while. The "blues" will simply fade away and you'll go after the hardest tasks as if they were play. Why? Because Old Hickory Tonic drives the poisons out of your blood and puts good red blood in place of them. It sharpens your appetite until there is not a nick in it. The kidneys, liver and bowels are toned up and made to do their work properly. You'll then not only be able to eat with more relish, but you can digest what you eat. Old Hickory Tonic is not a patent medicine. It is made from the private formula of a family of physicians who used it in their own practice for over a half century with wonderful results. Go to your druggist this very day and tell him you want a good big bottle of Old Hickory Tonic. Or, better yet, ask him for a special low price on six bottles and take it regularly for awhile. You'll find it one of the best investments you ever made. To be sick is the most costly thing in the world.

Big G is effective in treating unnatural discharges, painless, non-poisonous and will not irritate. Relieves in 1 to 3 days.
SOLD BY DRUGGISTS.
Patent Post 1112—Price \$1.00 or 5 bottles \$2.75.

PITCHERS SAVE THEMSELVES FROM SLIPPING BY USING BRAINS RATHER THAN BRAWN!

THE MASTER PITCHERS WHO USED HEADS TO WIN BALL GAMES. LEFT TO RIGHT, ADDIE JOSS, MATTHEWSON AND DICK RUDOLPH.

and to pitch without putting everything on the ball.

Mitchell says the wise pitcher, knows when the batter is going to hit and that Dick Rudolph can call the turn on the batter every time by the way he tightens up on the bat.

Most ballplayers will be shy of this statement. Rudolph has never been credited with saying he could tell that a batter was going to swing or pass up the ball and the smartest pitchers have never made such claims.

The fact is, that the batter is up there set to hit anything he likes and just because he may have decided to pass up or up is no reason why he would not swing if the ball is grooved for him.

Rudolph, like others, studies batters, and knows what they can hit and what fools them. Not having great strength or excessive speed Rudolph must know his batters to be successful.

In this Rudolph is only following a practice started probably by Addie Joss, who made himself the leading pitcher in the American league for years by studying batters and knowing what to pitch to them without exerting himself to the limit.

Pitchers with great strength and terrific speed are not forced to resort

to this method, although the strongest of them find themselves more effective by a systematic study of opponents.

Pitchers of the type of Walter Johnson and Alexander can win most of their games by their terrific speed and their sharp breaking curves.

Matthewson won success by studying batters. He was one of the greatest exponents of this style of pitching. Cy Young hung on in the big show for years because he knew what to feed batters.

Dusty Rhodes was one of the few pitchers who claimed to have a system in making batters hit certain ways. He contended certain kinds of pitching resulted in mathematical angles when the bat struck the ball and that he could determine before the ball was pitched whether it would be hit in the air or on the ground.

But although Rhodes' theory seemed plausible enough on paper, it did not work out in reality because Rhodes could not determine whether the bat would meet them clearly or a little above or below the turn which completely shattered his calculations.

If Fred Mitchell can teach pitchers to tell when a batter is going to hit and when he isn't, he will have robbed the opposing clubs of half their offensive strength—it's worth watching.

DISEASES OF POULTRY

Little Has Been Done to Find Cures for Many Ailments.

Every Poultryman Should Have on Hand Plentiful Supply of Permanganate of Potash Crystals and Epsom Salts.

By D. B. GREENBERG, Instructor in Poultry Husbandry, New York State School of Agriculture.
The old adage "an ounce of prevention is worth a pound of cure" is nowhere more applicable than in the case of diseases of domestic birds. So little has been done thus far by scientists to find cures for the numerous ailments of fowls, that not very many of them can be cured.

Our attention must then be directed to the prevention of diseases, and in most cases they can be avoided, if the poultry man is only willing to take the proper sanitary precautions. There are two medicines, which every poultry man should always have on hand, namely, permanganate of potash, crystals and Epsom salts. The former is now very expensive, due to the unsettled condition of the chemical market, but so little of it is really needed that a poultry man should not go without it. The crystals can be bought at any drug store. Do not buy it in solutions, as you are then paying for water.

Two tablespoonfuls of permanganate of potash should be added to a quart of warm water. Most of it will dissolve, but a few crystals will remain at the bottom of the bottle. Use this solution to color the drinking water of your birds, young and old, being careful to shake solution well each time before using. The drinking water should show a claret-red color against your hand thrust into the water. It is necessary to put your hand in the water because presence of light or shadow will make the water appear to be a different shade than it really is.

Too much of this permanganated water cannot be given to poultry. Sick birds should receive no other water. The permanganate acts as a disinfectant for the water and the digestive organs of the fowls. It is also good for healthy birds. In damp weather it should be put into the drinking water two or three times a week, as this will often prevent the spread of catarrh. Chicks just hatched should receive permanganated water for the entire first week, as the infection from white diarrhea occurs nearly always in this critical period of the birds' existence.

Epsom salts should be used when fowls are constipated or have diarrhea. In both cases it cleans out the sys-

tem. The dose varies from one-quarter of a teaspoonful for a very young chick to a full teaspoonful for mature birds. Dissolve the salts in warm water and moisten mash with this solution. Do not feed the sick birds in the morning but in the middle of the afternoon give them the mash.

IMPORTANCE OF GREEN FEED

Essential Item in Poultry Rations During Egg-Laying Season—Beneficial to Health.

Plenty of green food for the poultry, all they will eat, is an important item in poultry rations during the winter egg-laying season as well as at other times of the year. This can be supplied by growing kale and other winter greens outside the pen and giving the birds daily quantities, or by sowing a fall pasture of vetch, rape, mustard, rye, wheat, oats or other crop that will make consistent winter growth. In the latter case the fowls will have to be kept off the sowed area until the young plants get well established, when they will afford the hens all they need with no trouble to the owner. Provided in either way, the greens will have a beneficial effect upon the health of the flock as well as exert a valuable influence on the yield and quality of the eggs.

Pay of Our Employees.
More than 30,000 government civil employees are paid less than \$520 a year each.

And Never Will.
"Do man dat tells me de world owes me a livin'." said Uncle Eben, "never yit put his hand in his pocket to gimme sumpin' towards squarin' de account."

FEEL FINE! TAKE "CASCARETS" FOR LIVER, BOWELS

SPEND 10 CENTS! DON'T STAY BILIOUS, SICK, HEADACHY, CONSTIPATED.

CAN'T HARM YOU! BEST CATHARTIC FOR MEN, WOMEN AND CHILDREN.

Enjoy life! Your system is filled with an accumulation of bile and bowel poison which keeps you bilious, head-achy, dizzy, tongue coated, breath bad and stomach sour. Why don't you get a 10-cent box of Cascarets at the drug store and feel bully. Take Cascarets to night and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You'll wake up with a clear head, clean tongue, lively step, rosy skin and looking and feeling fit. Mothers can give a whole Cascaret to a sick, cross, bilious, feverish child any time—they are harmless—never gripes or sickens.

A Few Bargains For Men

During this seasonable weather we want to close out a few lines, and are going to make low prices move these goods.

Mackinaws, values \$7.00 to \$8.50 are now priced at \$5.50 to \$6.00.

Sweaters, some roll collars, some V-shaped in all the wanted colors, range from 50c to \$6.00 reduced one fourth to one third. Fine bargain.

Velour hats, we are offering a special lot of hats the next few at prices that mean money in your pocket.

Flannel Work Shirts, men's heavy work and dress shoes; overcoats, mufflers, etc.
